

User Manual Addendum

The enclosed user manual states that your smoke alarm is not suitable for use in mobile homes and caravans (page 5 for SI-601/SO-601/WSI-601/WSO-601, page 6 for SI-610/SO-610). Since the manual was printed all alarms have subsequently passed the additional testing as set out in annex L of BS EN 14604:2005 '*Alarms suitable for installation in leisure accomodation vehicles*' that is required for use in these applications. The FireAngel alarm contained within this pack is therefore suitable for use in mobile homes and caravans. Should you have any questions at all in relation to your FireAngel smoke alarm, please contact the customer service line 024 7623 6663 (Monday-Friday 9am to 5pm)

All products are certified to BS EN 14604:2005 by the Loss Prevention Certification Board (LPCB).
